

Terms & Conditions

- 1. Program Rebates** - Subject to these Terms & Conditions, National Grid/KeySpan Energy Delivery ("the Company"), through its contractual vendor, will pay rebates to eligible National Grid/Key Span Customers for the installation of specific Energy Efficiency Improvements ("EEI's") described in the application as Prescriptive Energy Efficiency Measures.
- 2. Customer Eligibility** - National Grid/Key Span customers are eligible if they are firm tariff gas customers on qualifying commercial rate code; and they are directly responsible for the payment of the National Grid/Key Span energy bills for the facility in which they do business. EEI installations must be completed between 9/1/2007 and 4/30/2008. Applications must be received by 5/31/2008.
- 3. Energy Efficiency Improvements (EEI)** - The Company will only pay rebates for the specific EEI's listed on the front of the Application. There will be no rebate payments for substitute EEI's unless the substitute is approved by the Company in writing and in advance of installation. All EEI installations must be installed in conformance with state and local code requirements and by properly licensed contractors.
- 4. Post-Installation Work Verification** - The Company reserves the right to not pay any rebate until it has performed a verification of the specified installation. If the Company determines that the EEI's were not installed in a manner that is consistent with Program guidelines and applicable state and local code requirements, the Company may require that the installation be modified before making any rebate payments. The cost of such modifications is the responsibility of the Customer.
- 5. Rebate Amounts** - The Company will provide rebates for approved equipment, equal to the rebate amount indicated in the program literature and within this Application. The Company reserves the right to change its rebate amounts without notice in addition to negotiating a lower rebate amount on a per-unit basis in the case of multiple installations at the same site. The rebate may not exceed the installed cost of the EEI's.
- 6. Proof-of-Cost of Installation** - The Customer must submit copies of all itemized invoices documenting the installation (including all materials, labor and equipment invoices), which reflect the actual cost of purchasing and installing the EEI's. In addition, the Company may request any other reasonable documentation or verification of the date of installation or the cost to the Customer of purchasing and installing the EEI's. The documentation shall be provided with the submission of this application.
- 7. Payment** - The Company expects to make rebate payments to eligible customers within 45 days of satisfactory work verification.
- 8. Installation Service Cost** - The Company will recognize material and installation costs only to the extent that they are reasonable and actually incurred by the Customer and fall within the guidelines of the Program.
- 9. No Warranties** - The Company does not endorse, guarantee or warrant any particular contractor, manufacturer or product. The Company does not make any representation of any kind regarding the results to be achieved by the EEI's or the adequacy or safety of such EEI's.
- 10. Limited Scope Review** - The scope of review by the Company and its Energy Savings Program Inspector of the installation of the EEI's is limited solely to determining whether rebates are payable. It does not include any kind of safety or code review, and should not be relied upon as one.
- 11. Changes in the Energy Savings Program** - The Program and these Terms & Conditions may be changed by the Company at any time without notice.
- 12. Payments Assignable to a Third Party** - The Customer may request that the National Grid/Key Span Energy Savings Program rebate be paid directly to a third party by so indicating in this application. Notification of third party payment will be sent to customer upon submission of application. If no payment choice is made, the Company will send the payment to the Customer directly at the address indicated in this Application.
- 13. No Tax Liability to the Company** - The Company is not responsible for any tax liability which may be imposed as a result of receipt of the rebate by the Customer
- 14. Contractor Insurance** - The Company is not responsible for any damage that may be caused as a result of an installation of any EEI. It is the responsibility of the customer to select Contractors who carry appropriate insurance coverage.

# Controls Prescriptive Rebate Application

Please review terms and conditions on reverse. Form must be completed entirely to be processed.

To participate, follow these simple steps:

- 1) Have a qualified professional install the energy efficiency controls.
- 2) Complete this simple application and calculate your anticipated rebate.
- 3) Return your completed application along with a copy of your dated work order/invoice/receipt that identifies the
  - prescriptive energy efficiency measure(s) eligible for rebate
  - quantity installed
  - installer information
  - installation costs
 UPC Codes required for thermostat rebate

Mail to: National Grid C&I Energy Efficiency Rebate Program, 40 Washington Street, Suite 2000, Westborough, MA 01581 800-292-2032

This program is available to National Grid heating customers for installations completed between 9/1/2007 and 4/30/2008. Applications must be received by 5/31/2008.

**Work Completion and Rebate Validation.**

I hereby affirm the following Prescriptive Energy Efficiency Controls have been installed. I acknowledge that all work is subject to on-site work verification and inspection as may be required by state and local law and by National Grid. I am aware of and agree to the Terms & Conditions stated on the reverse side of this application and am attaching copies of itemized proofs of purchase and invoices for the installation performed.
